

FOR IMMEDIATE RELEASE

SA International Announces Successful Completion of the HP Designjet L28500 Printer RIP Certification Program

Salt Lake City, UT – December 09, 2011 – SA International (SAi), the leading provider of Solutions for the Professional Sign Making, Large Format Digital Printing and CAD/CAM for CNC Machining Industries, today announced that PhotoPRINT, Flexi and FlexiPrint versions 10 have achieved a full star RIP (raster image processor) Certification rating for the HP Designjet L28500 Printer.

PhotoPRINT, Flexi and FlexiPrint achieved another perfect three-star rating when rigorously tested for compatibility with the HP Designjet L28500 Printer in the HP RIP Certification Program. The SAi RIP software received the highest rating possible in all categories of the HP Designjet RIP Certification Program, including a perfect three-star rating for Premium Workflow and Dual Sided Printing Support. Other criteria included Printing Performance, Use of an Embedded Spectrophotometer, Media Flexibility, Printer Management and Job Management.

HP RIP certification tests are designed to ensure smooth integration with the unique features of its printers. Only RIPs that meet the criteria for certification are allowed to use the “Certified for HP Designjet L28500 Printer” designation. To see how PhotoPRINT, Flexi and FlexiPrint fared in the test, visit

“PhotoPRINT, Flexi and FlexiPrint did it again! Our software products achieved another perfect rating on the RIP certification tests,” says Gudrun Bonte, Product Manager for PhotoPRINT, Flexi and FlexiPrint. “You know you can count on our software products to deliver dependable results with the HP Designjet L28500 Printer.”

About SA International

SA International boasts some of the world’s leading software. Flexi ranks as the world’s number 1 software for signmaking, while PhotoPRINT is found on more wide-format printers than any other RIP. SAi is also one of the leaders in the CNC machining market with EnRoute. SAi's software sells in 13 languages and 50 countries. The company’s eCommerce site, SIGN.com, offers more than 250,000 sign design elements. Headquartered in Salt Lake City, USA, SAi can also be found in Brussels, Belgium; São Paulo, Brazil; Shanghai and Hong Kong, China and Tokyo, Japan.
