SA International Announces the Launch of EnRoute™ 3.3

Philadelphia, PA – July 17, 2006 – SA International (SAi), the recognized global leader in providing complete, professional software solutions from design to production for the woodworking, sign making and large format digital printing industries, announces the release of *EnRoute 3.3*.

The new release of version 3.3 is the first round of EnRoute Software improvements for 2006. SAi's goal is to bring the best software to the market. To SAi it means helping customers solve real problems as simply as possible at an affordable price. Whether we are selling to the woodworking, sign making, or some other industry – fulfilling the needs and concentrating on our customers real life requirements is what makes EnRoute so powerful and impressive, while maintaining ease of use for a beginner to advanced user.

EnRoute version 3.3 highlights include a new Partial Offset Tool, XML Support for Cabinet Applications, New Start Point Reference, Support for Groups in DXF Files, Nesting Improvement, spiral entry/exit and more.

“We are working hard to provide our customers with a superior product, this free update shows our commitment to our customer base,” states Ran Rosin, Director, CNC Software, SA International.

About SA International:

SAi is recognized as a global leader in providing complete, professional software solutions from design to production for the sign making, digital printing, and CNC machining industries. The Company's software solutions help turn creative ideas into reality by providing world-class design and editing tools geared for production. Headquartered in Philadelphia, Pennsylvania, SAi has additional offices in Belgium, Brazil, Puerto Rico, China, Japan, UK and Russia.
